

METHODIST LADIES' COLLEGE

STRATEGIC PLAN

TOWARDS 2025

OUR VISION

An international leader of holistic learning and teaching.

OUR MISSION

Mentoring motivated learners to choose purposeful futures.

OUR VALUES

Integrity *Seek truth*

Mastery *Seek expertise*

Enterprise *Seek resourcefulness*

Justice *Seek fairness*

STRATEGIC FOCUS

Individual Care

At MLC, it is our priority to know each girl as an individual. Through understanding her abilities and aspirations, we can tailor our offerings to best suit her needs.

We achieve this through our expert knowledge on what is best for girls. Our smaller class sizes compliment the College's focus on differentiated learning, which sees our teachers monitor and promote the academic development of each girl through data tracking and targeted learning experiences. In this way, we support our students to reach their potential at MLC and beyond.

To ensure our students are supported on their learning journey, our holistic programme is underpinned by a strong focus on pastoral care. MLC's wellbeing curriculum, which draws on the latest research in positive psychology, instils a buoyant student culture while also helping to build each girl's confidence, self-esteem and resilience.

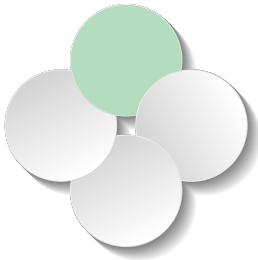

One campus, one journey means education at MLC is truly seamless. We nurture our girls from their early years of learning through all stages of their education (ELC, Junior Years, and Senior Years) to graduation, within our one beautiful campus.

STRATEGIC PILLARS

Strategic Projects 2015-2025

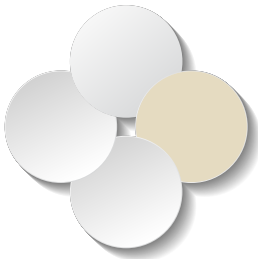

OUR STUDENTS

At MLC, we support our students to achieve their personal best. Our small class sizes allow staff to work closely with each pupil, while our differentiated curriculum sees learning opportunities tailored to meet their individual needs. In this way we're able to challenge and support each girl as needed, enabling her to reach her potential at MLC and beyond.

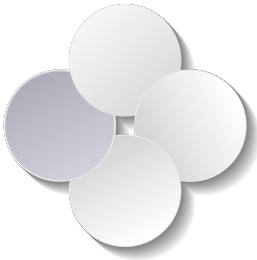

Continued development of our holistic education programme, with a strong focus on pastoral care, ensures we provide an environment where girls feel supported and empowered. Our wellbeing curriculum draws on the latest research to nurture each girl's wellbeing and spiritual development, while our diverse educational offerings—spanning academic, creative, sporting, service and leadership opportunities—foster personal development and success. Our *one campus, one journey* offering allows us to nurture each girl and provides a safe setting for girls to take risks in their learning and development which allow them to grow and flourish.

OUR RESOURCES

Through ambitious governance and planning, we endeavour to optimise use of our physical and intellectual resources to improve student learning and opportunities.

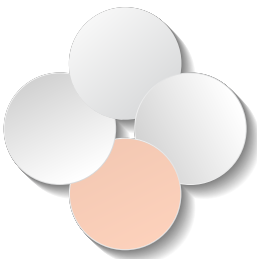

At MLC, we also pride ourselves on innovation. We seek the best technological systems and practices to develop our contemporary learning environment. This enhances the educational experience of our girls while also equipping them with the skills they need to thrive in a modern, digital world. Our futures-focused approach ensures we offer a multitude of opportunities that enable girls to be prepared for the unknown future of work they will encounter.

OUR PEOPLE

MLC's priority is to attract high-quality teaching and operations staff. Drawing on sound research and evidence-based techniques, our staff ensure the College remains an international leader of holistic learning.

An emphasis on differentiated instruction, supported by data tracking and analysis, allows our teachers to support and encourage each individual girl to achieve her potential. The continued development and implementation of a streamlined Science, Technology, Engineering, Art and Mathematics (STEAM) programme is designed to equip our girls with vital skills for the modern workforce. We understand what is best for girls and continue to develop our programmes and opportunities to enable this.

OUR COMMUNITY

MLC is committed to building strong local and global partnerships. Our support groups foster a strong sense of community among parents, Collegians and other MLC stakeholders. We also work with universities to develop innovative academic pathways for students, while our industry relationships offer girls real-world opportunities for career development, leadership training and mentoring.

Inclusivity and diversity are at the heart of all we do, and MLC is committed to delivering an educational programme informed by intercultural awareness. We embrace an international perspective to ensure our girls become true global citizens. We value our many partnerships with the community, locally, nationally and also internationally, which promotes opportunities for our girls and provides multiple opportunities for our girls to give back to others.

ACADEMIC FRAMEWORK

TEACHING

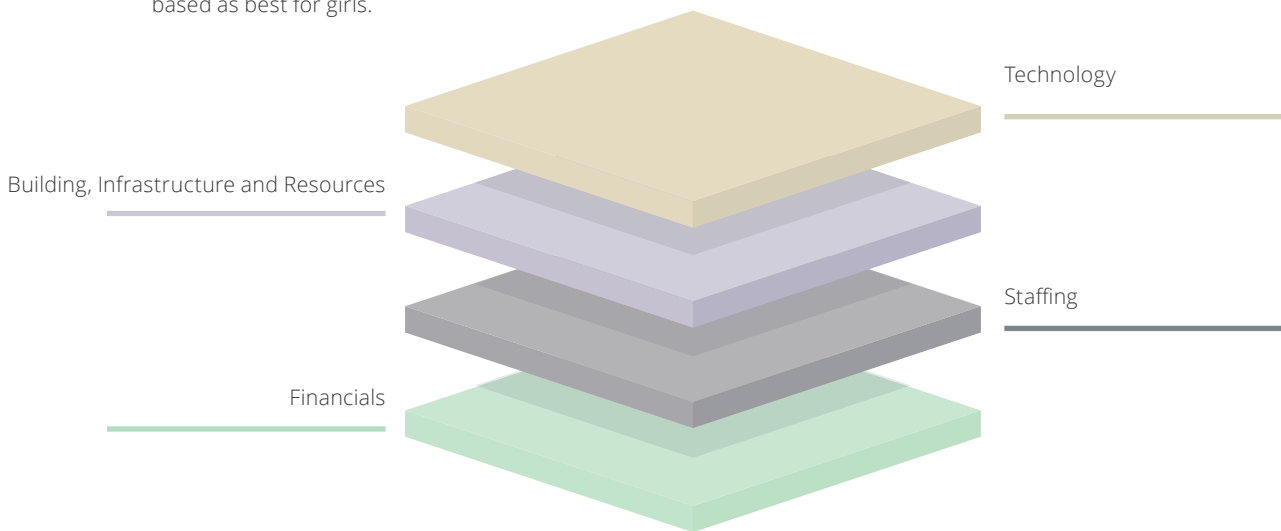

- Differentiated instruction
- Achievement matching potential
- Expanded Information and Communications Technology use to enhance learning
- Development of a seamless STEAM programme
- Education and wellbeing programs that are evidence-based as best for girls.

LEARNING

- Data tracking and analysis
- Expansion of course offerings
- Development of a contemporary learning environment
- Holistic learning to balance academic study and wellbeing
- Innovative programmes - preparing girls for unknown futures.

READINESS

- Multiple pathways
- Leadership development
- Targeted careers development
- Development of partnerships to widen real-world opportunities

OUTCOMES

For every girl to be known as an individual

For every girl to be stretched to reach her potential

To provide diverse pathways to enable each girl to succeed post-MLC

To provide holistic care so girls feel supported and empowered while building resilience

To provide innovative opportunities (service, co-curricular and academic) for development and success

Per Ardua Ad Alta;
through striving to the heights
